

Dear Comm. Henney April 23, 1999  
This is in reference to Docket 99P-0033/CPI

Enclosed is a summary of  
Hemone Farming Assns petition  
to the FDA. Please act on  
this petition to put an end  
to the practice of feeding  
dead pig, sheep, horses,  
etc to other farm animals.  
Cows are not meat eaters  
by nature.

Besides, infectious agents  
can be passed from  
feed to animal to  
humans.

Thank you,

Marilyn Evenson

**SUMMARY OF HFA's PETITION TO THE  
FOOD AND DRUG ADMINISTRATION (FDA)**

In its first petition, HFA demands that:

- Blood and blood products from all mammals, including pigs and cows, must be prohibited for use in animal feed and pet foods.
- Gelatin and gelatin by-products must not be used in animal feed, as gelatin might carry infectious agents.
- Porcine materials must not be used in animal feed because U.S. pigs are known to have exhibited symptoms of central nervous system disease suspected as being TSE and have proven susceptible to TSE in laboratory tests.
- TSE-positive material absolutely *must not* be fed to any animals or be used in cosmetics, fertilizer or other products.
